Congressman Doug Bosco
1330 Lonworth Building
Washington, D.C. 20510

Congressman Bosco:

I enjoyed the bus tour of the Laguna de Santa Rosa and wanted to thank you for taking the time. Public awareness has been the missing link in Laguna protection and you have helped that along.

I mentioned to you that we might arrange an informal walk so that you could get the feel of the Laguna in a more intimate way. We could set it up at your convenience, have about six people along, make it non lobbying, non media and just let the Laguna do the talking.

Thanks again for your support and efforts in this regard.

Sincerely,

Richard Nichols
