## Laguna Day is a step in the right direction

**T**he Laguna de Santa Rosa Awareness Day celebration scheduled for Nov. 16 is one of the positive outcomes of the increased awareness and debate over the city of Sebastopol's plans for a Laguna Park. This effort to bring together the many groups and individuals who have a common interest in the Laguna de Santa Rosa is a noble effort. We applaud those groups involved in supporting and organizing the event. We can only hope that this spirit of cooperation and shared vision will prevail in future efforts to preserve the Laguna.
