OPINION

LETTERS TO THE EDITOR

Laguna & golf a good match

Editor: Regarding the proposed golf course on the Kelly Farm and the article in the Press Democrat. The first paragraph of the article says to be built on the "very edge of the Laguna de Santa Rosa." When one views the site and the preliminary layout map supplied by Mr. Ed Brauner it is obvious that more than half of the proposed course has Balletto Farms operation and new building between the proposed course and the Laguna and the balance of the course appears to be quite some distance east of the service road used by the city of Santa Rosa.

I am in complete agreement with the preservation of the Laguna and believe that the proposed course could be compatible with and actually benefit the Laguna. I would also like to know where the concern over the Laguna was when Balletto Farms built on the "edge of the Laguna de Santa Rosa."

Jim Searles, Sebastopol
