

## Fire Recovery and Replanting Survey

The Laguna Foundation is working as part of a greater fire recovery collective effort alongside the Sonoma County Agricultural Preservation and Open Space District, the California Native Plant Society Milo Baker Chapter, and the Sonoma Resource Conservation District. Staff and volunteers have collected and cataloged more than 350 batches of acorns and have hundreds more native shrubs, flowers, and grasses we hope to get into the hands of landowners who have been impacted by the October 2017 fires.

Please take this quick survey so that we can connect you with the best plants for your location. For those who wish to participate, we will hold neighborhood events, to help demonstrate planting techniques and to answer any questions about growing native plants.

### Contact Information

Name (First and Last) \_\_\_\_\_

Email \_\_\_\_\_

### Property Information (Where will you be planting?)

Address \_\_\_\_\_

City: \_\_\_\_\_

### Timing (When do expect to be ready to plant?)

Now       Fall 2018       Spring 2019       Fall 2019

### Types of Plants

Trees (est. #) \_\_\_\_      Shrubs (est. #) \_\_\_\_       Flowers       Grasses

Are there any specific native plants that you are interested in planting?

### Do you need help with erosion control and/or assessment?

Yes       No
